

**FOGPROOF
CONSTRUCTION
GUARANTEES IDEAL PERFORMANCE.
EVEN WHEN CONDITIONS ARE
ANYTHING BUT.**

KAHLES

since 1898
AUSTRIA

You've been there before. And so has your rifle scope. Changeable conditions are why Kahles pioneered O-ring waterproof technology. And why every Kahles rifle scope is nitrogen purged repeatedly to eliminate all moisture from inside the scope tube. The industry's tightest tolerances insure a perfect seal and one-piece construction eliminates any possibility of leaks. So no more excuses. Get out there and hunt.

**THE
ADVANTAGE IS
CLEAR.**
