

# ROKON<sup>®</sup>

*The only true all-terrain vehicle on planet earth*

**If it doesn't  
say ROKON,  
It isn't a true  
all-terrain  
vehicle.**

**PERFECT FOR**

- Outdoor recreation – hunting, fishing
- Search and rescue
- Commercial and industrial
- Farming and agriculture

There's no other all-terrain vehicle available today like the ROKON. Because ROKON goes where no 4-wheel drive vehicle can. Up steep grades, over high obstacles, through narrow tree stands, through up to two feet of water. And ROKON does it with more safety to the rider and the environment. That's why ROKON is the ultimate all-terrain vehicle.

**ROKON**<sup>®</sup>
